

## Installation and Google Home

1. Connect the speakers to the control unit
2. Connect power to the control unit and hear a beep from the speakers after a short time
3. Open the Google Home app
4. Click «Configure Connecte Co009»
5. Follow the installation instructions in Google Home

## Setup in the Connecte app

1. Scan the QR code to the right to download the Connecte app or find a link at the bottom of our website: [www.connecte.no](http://www.connecte.no)
2. Create a user in the Connecte app
3. Click «add product» and select «automatic scan»
4. Select Connecte Smart Sound and continue
5. After a short time, the installation is complete and the product is ready for use

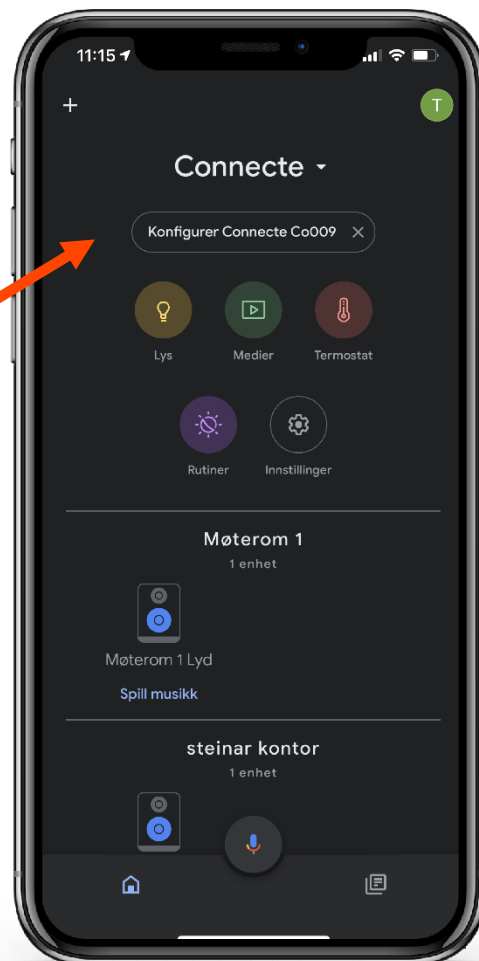

## Pair the remote control

Hold down the Play and Off/On buttons at the same time until the LED light on the remote control flashes. Pairing is complete when the LED light stops flashing.

## Add family members in the apps:

Connecte app: Me > Home control > Your home > Add member

Google Home: Settings > Household > Invite person
